22 January 1986

MEMORANDUM FOR: Chief, Budget & Fiscal Branch
Office of Logistics

25X1 ATTENTION:

[Redacted]

VIA:

Chief, New Building Project Office

25X1 FROM:

[Redacted]

Tech Rep

New Building Project Office, OS

SUBJECT:

FY 1986 New Building Project Office Security
Equipment Appropriation

As you are aware, approximately \$2.5M of the Office of Security's tech budget was deferred from FY 1985 funds through the Office of Information Technology. It is anticipated that most of the \$2.5M will be needed by OS to complete NBPO security requirements. Approximately \$1M will be for the direct purchase of equipment and hardware; another \$1M will be needed for an installation labor contract of GFE. This will leave a surplus of about \$500K that is not presently identified toward any technical security requirement. If you should have any further questions, please contact myself or [Redacted] on [Redacted]
